

CMA Bulletin

To: CMA MEMBERS
No: BU136
Title: Technical responsibilities within the CMA
Purpose: For Information
Expiry date: NA
Attachment: NA
From: Jeremy Atkinson
Date: 4 May 2020

This Bulletin is to inform Participants that technical responsibilities within the CMA have been allocated to three newly created Business roles:

Release Project Manager (David Candlish)

The Release Project Manager will deliver the March, September and Hot Fix Releases. All interactions with the Market regarding Releases (such as the presentation of User Requirements, management of MRT/connectivity testing, and circulation of Release notes) will be the responsibility of the Release Project Manager.

Head of Operations (Jonathan Grassie)

The Head of Operations is responsible for all Market Operations. This includes: the management of License transfers; the management of POLR and business continuity exercises; managing the migration to the HVI; connectivity testing (outside scheduled Releases); updating participant certificates; and authorising and testing ad hoc scripts.

Head of Audit (Euan Wright)

The Head of Audit is responsible for liaising with the Market Auditor on the CMA Audit and delivering the Participant Audit. All interactions with the Market regarding the Participant Audit will be the responsibility of the Head of Audit.

Participants are requested to direct all technical requests and enquiries to enquiries@cmascotland.co.uk in the first instance. Your request or enquiry will then be logged and triaged appropriately.
