**Your Ref:**

Dear Amanda,

## **Technical Panel**

The Commission was requested to approve the Market Code Change Proposals noted below:

### **MCCP274 Meter Volume Validation B.1**

### **MCCP278 HVI Security B.1**

The Commission has consulted on Market Code Change Proposal 274 and 278 as required by section 8.7.1(ix)A of the Market Code. Having considered the change proposals and having received no material consultation responses, the Commission has no comment to make on Market Code Change Proposal 274 and 278 and therefore confirms its consent in accordance with Section 8.7.1(xi) of the Market Code.

The Commission has, however, received one wider comment recommending an amendment to the MCCP and OCCP templates to include a new section that assesses the impact on consumers of the proposed changes. The respondent outlined that this change would support embedding a consumer interest into market discussions and decision making, and ensure outcomes remain focused on the end user. This suggestion appears to have also been brought up at a previous TP/MPF session.

The Commission fully agrees with this suggestion.

Please let me know if you have any questions on the above.

Yours sincerely,

**Cosmin Diaconita**  
**Analyst**
